Language

English: Proficiency

Hindi: Proficiency (Native)

PROJECTS

NoteBook Zone

NoteBook Zone is a cloud web app created using **React-JS**.

Here user can store their note online on cloud, in NoteBook Zone user required to Login/signup to store note online.

I have used CURD (Create ,update, read and delete) stack where user can later make changes in existing note and delete notes. User notes and password will be saved in our database (Mongo DB) for security reasons I have used JWT token to store user password in hash along with sault.

View project

Text Verse

Text Verse is a **React-JS** application.

The basic functionality is here user can convert text from lowercase to uppercase or uppercase to lowercase also user can remove extra white spaces, copy converted text to clipboard and preview converted text.

Basically he allow users to manipulate text. To make the UI cool I have added the enable dark mode functionality.

View project

Tic Tac Toe

Tic Tac Toe is a game created using pure **HTML, CSS and JS**.

This game is fully responsive users can play this game in desktop as well as in smart phone. apart from basic functionality of this game there is music button where user can play and stop music, another button to **Restart Game.**

When a user won a winning animation will be appear.
