Pratik Banger

FULL STACK WEB DEVLOPER

PROJECTS

○ ### VibeLand - Social Media Web-App

Vibe Land is complete social media web-app created using MERN Stack

Just like in other social media website user can search and follow their friend using their username and check out their profiles, like their post and all.

I have used JWT for authentication on backend and Redux and Redux-Thunk for globally state management on frontend

○ ### Tech Blog - Blog website

Tech Blog is a Full Stack Web-app created using MERN Stack

Just like YouTube this website doesn't fetch all blog in once it fetch blogs in certain amount when you scroll down it fetch more blogs and so on.

In order to read blogs user doesn't required to be logged, Although if user want to create blogs they needs to be logged in, then they can create blog add picture with it and later they can edit or delete them based on their need.

It also support search functionality so user can search specific blog they are looking for.
